Priority

This application is a 371 of PCT/EP04/51699 08/03/2004 which claims benefit for foreign priority under 35 U.S.C. § 119(a)-(d) to ITALY VA2003A000028 08/07/2003, is acknowledged.

Status of Claims

Receipt is acknowledged of amendment / response filed on August 05, 2008 and that has been entered.

Claims 17-28 are currently pending in the application. Claims 1-16 were canceled previously.

Claims 22-28 are withdrawn from further consideration pursuant to 37 C.F.R. 1.142 (b) as being drawn to a non-elected subject matter.

Information Disclosure Statement

Receipt is acknowledged of Information Disclosure Statement (IDS), filed on 02/02/2006, which has been entered in the file.

Response to Election/Restriction

In response to the restriction requirement, Applicants have elected Group III, [which includes claims 19-21 drawn to a photopolymerizable system comprising a compound] is acknowledged. However, during a telephonic interview with Mr. Gene Tyler (Attorney for Applicant) on December 04, 2008, Applicant has agreed to cancel non-elected claims 22-28. On the other hand, Examiner has agreed to rejoin claims 17 and 18 with the elected Group III, because they commensurate within the scope of elected invention. Therefore, the restriction

Art Unit: 1626

requirement is hereby withdrawn and hence, all remaining pending claims 17-21 are currently examined and found allowable over the prior art of record.

Examiner's amendment

An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephonic interview with Mr. Gene Tyler on December 04, 2008.

The application has been amended as follows:

- a. Claims 22-28 have been canceled.

Reasons for allowance

The following is an Examiner's statement of reasons for allowance:

Claims 17-21 are being allowed since the instantly claimed inventions are neither obvious nor anticipated by the prior art (US 6,492,514 cited in IDS) and there is no suggestion or motivation to modify the compounds of any prior art to obtain the instantly claimed invention. Therefore, the instant claims 17-21 are found allowable over the prior art of record.
